

ADVANCING CONNECTED CARE™

Hillrom™

Becoming Vitally Connected

Connex Spot Monitor sending vital information
where you need it, when you need it

MEET THE WELCH ALLYN® CONNEX® SPOT MONITOR

A Vital Signs solution to help you make informed decisions

It's easy to use and supports comprehensive bedside monitoring -from routine vital signs acquisition to early warning scoring and interval monitoring. We can integrate with your EMR giving your care teams immediate access to critical information where and when they need it.

- 1** Customised features help clinicians identify and respond to signs of patient deterioration sooner.
- 2** Vital signs and other patient health data points are sent directly to the EMR to help reduce errors and omissions.
- 3** Industry leading technologies support and produce readings you can rely on.
- 4** Partnerships with over 90 EMR providers globally including those recognised on the NHS X IT Framework.

ADVANCED PATIENT SAFETY BY CONNECTING...

PAPER CHARTING

VS.

ADVANCED PATIENT SAFETY

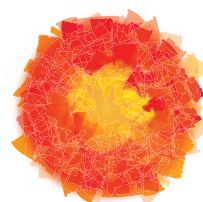

Technology plays a key role in the detection of patient deterioration, and by using a fully connected vital signs patient monitor and an approved Track & Trigger System, such as NEWS2, clinicians can help deliver an Early Warning Score that aids in rapid diagnosis and treatment.

Vitals automatically available in the EMR or e-obs software

“By eliminating the need for caregivers to record vital signs on paper charts we have achieved a 53.5% reduction in the time it takes to document a full set of NEWS observations.”¹

Hillrom UK is delighted to be working with The UK Sepsis Trust "As a Charity our goal is to end preventable deaths from sepsis and improve outcomes for sepsis survivors" said Dr. Ron Daniels, BEM, NHS Intensive Care Consultant and Founder of the UK Sepsis Trust. "We believe that earlier diagnosis and treatment across the UK could save thousands of lives, and are delighted to be working with Hillrom. Together, we will help to raise awareness of sepsis in both Primary & Secondary Care settings and aim to deliver real change in terms of facilitating an early diagnosis.

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
